

## Incite MAM Web Edit ARCH Export

Once when you are inside the WEB editor , to edit you can navigate through different Ingest projects and folders to find your material.

With double-click you can load a file to the CE (Clip Editor) or you can drag and drop it to the TL (timeline)

IMC Technologies Inc. Rue des Voisins 30, 1205 Geneva, Switzerland www.incite-tech.com

You can also search for your material in the search tab and from there you can insert to TL or load to CE.

When a file is loaded to CE you can cut it (Mark in / out) and insert different parts to the TL.

IMC Technologies Inc. Rue des Voisins 30, 1205 Geneva, Switzerland www.incite-tech.com

IMC Technologies Inc. Rue des Voisins 30, 1205 Geneva, Switzerland <u>www.incite-tech.com</u>

On the TL you can also directly trim a clip (select object, mark-in, mark-out) .

When the TL is finish you can "Save" your TimeLine, Note TL name will be name of you exported file. If you wish to export different partition of TL with different name Ctrl+ Alt + S will allow you to Save AS.

IMC Technologies Inc. Rue des Voisins 30, 1205 Geneva, Switzerland <u>www.incite-tech.com</u>

## On the Render button select ARHIVA-Clip and destination and system will export
